### DETAILED ACTION

1. Applicant's amendment received March 21, 2003 is acknowledged and entered. Claims 1-17, 21-23, 26, 28-29, 33-45, 47, 49 and 50 are pending.

#### *Election/Restrictions*

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-17 and 21-23, drawn to a polynucleotide vaccine, classified in class 536, subclass 23.1.
  - II. Claims 26, 28-29, 33-45, 47, 49 and 50, drawn to a method of inducing an immune response using a polynucleotide vaccine, classified in class 435, subclass 5.

Further restriction is required in claims 4 and 44, drawn to multiple polypeptide amino acid sequences encoding influenza virus M2 polypeptide. The three SEQ IDs have different amino acid sequences, resulting in variant proteins. Each variant protein requires a separate amino acid sequence search, which is burdensome. Applicant is required to elect one SEQ ID NO, or one hybrid, or one combination, as claimed in claims 4 and 44.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product can be used in a method of viral antigen production.

Art Unit: 1648

Because these inventions are distinct for the reasons given above and the literature search required for Group I is not co-extensive for Group II, and therefore burdensome, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

#### ***Conclusion***
